Profile

Committed to utilizing my skills to further the mission of the company. Able to effectively self-manage during independent projects and collaborate as part of a productive team.

Skills

- **Languages:** Python, HTML/CSS, JavaScript, SQL
- **Tools:** Git, Docker, MongoDB

Experience

Software Developer Intern, SAP

Singapore | Sept 2020 - Feb 2021
- Communicated effectively with members of the software development team.
- Developed integration tests using Docker SDK (Python) to safeguard future coding alignments and merged them into CI/CD pipeline.
- Reviewed existing code and implemented relevant changes and unit tests, promoting SAP's documented conventions.
- Stack: Python, Docker, Jenkins

Open Source (StandupMan), MLH Fellowship

Remote | Feb 2022 - Apr 2022
- Developed a Slack app as a mode of choice to streamline users' standup processes.
- Created a reminder system to remind users to post their standup notes.
- Stack: Node.js, ExpressJS, MongoDB

Project

Financial Sentiment Exploration   July 2021
- Built a web application that translates financial stock tweets into sentiment scores.
- Graphed the sentiment scores against stock price over time for users to infer the performance of the stock along with the opinions of netizens.
- Stack: Python

Education

SIT & University of Glasgow

BSc (Hons) Computing Science   Aug 2022 - Aug 2025

Nanyang Polytechnic

Diploma in Financial Informatics   Apr 2018 - Apr 2021
